PROFESSIONAL SUMMARY

Results-driven .NET Fullstack Developer with experience building scalable web applications using ASP.NET Core MVC and C#. Skilled in designing modular systems with microservices architecture and event-driven communication. Delivered multiple real-world projects in healthcare, procurement, and task management domains, improving performance, usability, and system efficiency.

SKILLS

Core	.NET, ASP.NET Core, ASP.NET Core MVC, C#
Frontend	JavaScript, AJAX, Bootstrap, HTML, CSS, Kendo UI
Databases	PostgreSQL, MySQL
Messaging	RabbitMQ, Redis, Elasticsearch
Tools	Git, GitHub, VS Code, Visual Studio Community
Languages	C/C++, Java, PHP, Python

Experience

Fullstack Software Development Intern Casepoint Pvt. Ltd., Surat	Jan 2026 – May 2026
- Developed a scalable full-stack application using ASP.NET Core MVC + PostgreSQL that supports 5+ business modules, streamlining internal workflows and enhancing operational efficiency - Boosted frontend performance by implementing JavaScript, AJAX, Bootstrap, and optimized UI components, reducing average page load time by 25% - Enhanced system performance through efficient database design and query optimization in PostgreSQL, reducing load on the backend - Collaborated in end-to-end software development lifecycle (SDLC) involving code reviews, debugging, and version control using Git, resulting in higher code quality and fewer production issues	

EDUCATION

Bachelor of Engineering (Computer Science & Engineering) Government Engineering College, Patan CGPA: 7.73 / 10	Sept 2023 – May 2026
Diploma in Computer Engineering Government Polytechnic, Jamnagar CGPA : 7.80 / 10	Oct 2020 – May 2023

PROJECTS

FarmBridge (Agri Procurement System) Tech Stack: C#, .NET, JavaScript, Ajax, HTML, Kendo UI, CSS, Bootstrap, PostgreSQL	Apr 2026 – May 2026
- I worked on a distributed procurement platform connecting farmers, vendors, and warehouses, improving supply chain coordination. - Worked with RabbitMQ for asynchronous communication, enabling scalable event-driven processing - Worked with Elasticsearch-based search, reducing query response time and improving data retrieval efficiency	

Clinic Management System

Mar 2026 – Apr 2026

Tech Stack: C#, .NET, JavaScript, Ajax, HTML, Kendo UI, CSS, Bootstrap, PostgreSQL

- Built a healthcare management system handling patient records and appointment scheduling
- data retrieval performance using Redis caching, reducing database load
- Enabled inter-service communication using RabbitMQ, enhancing system scalability
- Enhanced responsive UI using Kendo UI, improving user experience

Task Management System

Feb 2026 – Mar 2026

Tech Stack: C#, .NET, JavaScript, HTML, CSS, Bootstrap, PostgreSQL

- Implemented JWT-based authentication with role-based access control, securing application endpoints
- Improved RESTful APIs with full CRUD operations and AJAX integration, ensuring seamless client-server interaction

Pharmacy Management System

Nov 2022 – May 2023

Tech Stack: PHP, JavaScript, HTML, CSS, Bootstrap, MySQL

- Delivered a full-stack inventory and billing system, improving operational tracking
- Designed modules for stock management and automated billing workflows

ACHIEVEMENTS

- Secured 3rd Rank in Smart India Hackathon (College Level)
- Governor Award Recipient (2019)

CERTIFICATIONS

- The Bits and Bytes of Computer Networking – Coursera
- FINTECH – BSE (RUSA)
